

ANGEL VILE

About

Synth-Driven Darkness with Soulful Ethereal Vocals

Angel Vile is an alternative synth artist blending soulful vocals with gritty soundscapes. Originally from East London and now based in Birmingham, UK, Angel crafts music that explores themes of empowerment, heartbreak, and self-expression. Her artistry reflects a fusion of vulnerability and fierceness, inspired by artists like Grimes, The Prodigy, and Lana Del Rey.

As a self-producing artist, Angel takes full creative control of her work, combining modern synth-driven soundscapes with deeply personal lyrics. Her music celebrates contrast—gritty yet ethereal, soft yet powerful—mirroring her unique life experiences as a nomadic and introspective artist.
